Psychodelia in garage land /// San Francisco/// Goner Rds /Castle Face/In The Red/ Drag City

Ty Segall is back with another fantastic album « Goodbye Bread » and a EP « Spiders » both on Drag City Records

Ty Segall grew up in the sunny surf of Orange Country California's Laguna Beach where he spent his young days studying, surfing, and listening to the beach boys, the misfits, and black sabbath. Ty knew he had to get away from the sun in order to truly appreciate it, so he moved up north to the port of San Francisco and was amazed at how cold it was. Despite this fact, he found a new appreciation for psychadelic music and decided that he would give it a shot. Ty Played in the traditional fools, Party Fowl, The Epsilons, Sic Alps, and The Perverts. After meeting friend John Dwyer of Oh Sees fame, Ty was lucky enough to release a solo record on Dwyers Castle Face record imprint and continued to release records on memphis label, Goner Records (Guitar Wolf, Oblivians, Carbonas, Etc.) Ty works as a cabinet maker loves to hang out with buds and thinks he is a very lucky person...
